- Gaurav Ahirwar

SUMMARY

I am a B.Tech student specializing in Artificial Intelligence and Machine Learning at Sage University, Indore. I am passionate about programming, data science, machine learning, and building practical technology projects. I am currently strengthening my foundation in Python, data structures, problem solving, and machine learning while exploring tools and technologies used in real-world AI and data-driven applications. My long-term goal is to develop strong industry-ready skills and build a career in Data Science, Machine Learning, or AI Engineering.

EDUCATION

Sage University, Indore Indore, Madhya Pradesh
Bachelor of Technology (B.Tech) in Artificial Intelligence and Machine Learning

Excellence School No. 1, Chhatarpur Chhatarpur
Secured 81.4% in Class 10 and 83.4% in Class 12 with PCM

PROJECTS

Student Data Portal | Project with features such as adding, viewing, searching, updating, deleting, ranking, grading, and saving student records.
Mobile Recharge Billing System | Project involving recharge plans, GST calculation, and cashback logic.
AI Complaint Management System | Developed using Python, Streamlit, SQLite, and Generative AI concepts.

TECHNICAL SKILLS

Python – C++ - Data Structures and Algorithms - Data science - Artificial Intelligence - Machine Learning Programming concepts - Generative AI - Communication - Problem solving - VS Code - Jupyter Notebook - SQLite - Creativity

LEARNING & DEVELOPMENT

I am actively developing my skills in Python, Data Science, Machine Learning, Artificial Intelligence, and Generative AI. My learning journey includes Python fundamentals, DSA, functions, file handling, exception handling, OPPs, modules, statistics, and visualization. I am particularly interested in data-driven problem solving and machine learning because they combine programming, mathematics, and real-world applications.

ACHIEVEMENTS

Academic Excellence recognition at Sage University Indore - Achieving 119th rank in Madhya Pradesh in NMMS.

CAREER OBJECTIVE

My career objective is to become a skilled technology professional in the field of Data Science, Machine Learning, or Artificial Intelligence. I want to build strong technical foundations, gain practical industry experience through internships and projects, contribute to meaningful real-world solutions, and continuously grow as a professional.
